Conical Reducing Joint 40 - 32, IDROSPANIA

Brand: IDROSPANIA

Reference: GIB 007889

This conical reducing joint is designed to facilitate the connection between pipes of different diameters, offering an efficient and safe transition. Made of flexible rubber, it guarantees excellent adaptability and durability, making it an ideal choice for various applications in hydraulic and plumbing systems.

Description

The 40 - 32 conical reducer joint is an essential component in piping systems that require a smooth transition between different diameters. Designed to provide a secure and efficient connection, this joint is suitable for applications that demand flexibility and durability.

- Reduction diameter: 40 mm to 32 mm
- Material: Flexible rubber
- Color: Black
- Conical design for better fit and seal
- Resistance to deformation and wear
- Compatibility with a wide range of fluids
- Easy installation and maintenance
