

Product sheet

O-rings - 18.72 x 2.62mm - 100 pcs

Brand: GIBALTO

Reference: GIB 002064

O-rings are essential elements in sealing applications, designed to prevent fluid leaks in various industries. Their circular geometry allows for a precise fit in different assemblies, ensuring an effective and long-lasting seal under various conditions. Their use is essential in hydraulic and pneumatic systems.

[View product online](#)**Description**

O-rings are essential components in fluid sealing, designed to ensure effective sealing in a variety of industrial applications. This specific product offers O-rings measuring 18.72 x 2.62 mm, available in a quantity of 100. Precision manufactured, these seals ensure optimal performance under demanding conditions.

- Dimensions: 18.72 mm inner diameter and 2.62 mm thick.
- Material: High quality composition for pressure resistance and durability.
- Application: Suitable for hydraulic and pneumatic systems.
- Sales format: Available in bags of 100 units.
- EAN13 Code: 8432453020649.
- Compatibility: Designed to adapt to a wide range of equipment and machinery.
- Durability: Able to withstand variations in temperature and pressure.
