

Product sheet

O-rings - 50 x 6.50mm - BULK

Brand: GIBALTO

Reference: GIB 003587

O-rings are essential elements in sealing applications, designed to prevent fluid leaks in various industries. Their circular geometry allows for a precise fit in different assemblies, ensuring an effective and long-lasting seal under various conditions. Their versatility makes them key components in mechanical systems.

[View product online](#)**Description**

50 x 6.50 mm O-rings are essential components in fluid sealing applications. Designed to provide an effective seal, these seals are used in a wide variety of hydraulic and pneumatic systems, ensuring the integrity and optimal operation of the equipment.

- Inner diameter: 50 mm
- Section thickness: 6.50 mm
- Material: High-strength composite to ensure durability and abrasion resistance
- Application: Suitable for hydraulic and pneumatic systems
- Resistance to extreme temperatures: Withstands a wide range of temperatures, ensuring functionality in adverse conditions
- Chemical compatibility: Resistant to a variety of fluids, including oils and fuels
- EAN13: 8432453035872
