Description

The 35 cm M3/8 H3/8 standard flexible hose is a versatile and reliable solution for applications requiring flexibility and strength in fluid conveyance. Manufactured with 304 stainless steel braided mesh, this hose offers excellent protection against corrosion and wear, ensuring a long service life. Its non-toxic EPDM inner tube is specifically designed for potable water transport, meeting safety and health standards. Nickel-plated brass fittings guarantee secure and durable connections, minimizing the risk of leaks and facilitating simple and efficient installation. This product is ideal for plumbing systems and other applications where safe and effective water conveyance is required.

- **Braided mesh:** 304 stainless steel
- **Inner tube:** Non-toxic EPDM for drinking water
- **Fittings:** Nickel-plated brass
- **Dimensions:** M3/8 H3/8 35 cm
- **Availability:** Various sizes
- **Sold:** By the bag of 10 units
- **EAN13:** 8432453002720
- **Applications:** Ideal for plumbing and water conveyance systems
- **Resistance:** High corrosion resistance
- **Installation:** Secure and easy-to-install connections

Specifications

EAN	8432453002720
Material	Acero inoxidable
