Product sheet

Multi-cone Reducer 80-100mm, Fire Retardant Material, Pyramidal Design - MULTI-CONE

Brand: GONAL

Reference: GIB 003381

The 80-100 mm Multi-Cone Reducer facilitates the reduction from Ø125 to Ø100 mm. Its fire-resistant material and pyramidal design improve ventilation and extraction, ensuring efficient performance in gas and vapor evacuation systems.

Description

The **MULTI-CONE REDUCER - 80-100MM** is an essential accessory for optimizing gas and steam evacuation in various installations. This multi-cone reducer allows for diameter reduction from Ø125 mm to Ø100 mm, efficiently adapting to kitchen extractor hoods, bathroom ventilation systems, dryer vents, and small installations in general. Its pyramidal design facilitates a smooth transition between different diameters, improving airflow and minimizing residue buildup.

Manufactured from fire-retardant and self-extinguishing material, the MULTI-CONE REDUCER ensures safe operation, withstanding temperatures up to 80ºC.

The product's smooth inner wall reduces pressure loss, resulting in superior performance in ventilation, heat pump, and extraction applications compared to traditional flexible ducts.

- Reduction from Ø125 mm to Ø100 mm
- Pyramidal design for better adaptation
- Flame-retardant and self-extinguishing material
- Maximum working temperature: 80ºC
- Smooth inner wall to reduce pressure loss
- Improved performance in ventilation and extraction
- Ideal for extractor hoods and ventilation systems
- Use in small installations and flue gas outlets
- EAN13: 8432453033816
