Description

The Flutec Pack is an efficient and practical solution for optimizing water use in low-level cisterns. This set includes a stop-flush valve and a universal dual float, designed to offer superior performance and significant water savings. The stop-flush valve allows for interruption of the flush, contributing to water conservation, while its installation is quick and does not require disassembling the cistern. On the other hand, the universal dual float is equipped with a brass fitting and a silent filling system, guaranteeing efficient and discreet operation.

- **INTERRUPTIBLE FLUSH:**

- Interrupted flush for water saving
- Maintenance-free
- Silent mechanism
- Fast flush
- Quick installation, without disassembling the cistern
- UNIVERSAL diameter
- Includes base and seat gasket

- **DUAL FLUSH TAP:**

- 3/8" brass fitting
- Pressure 0.2-10 BAR
- Maximum peak pressure of 21 BAR
- Resistant to deterioration
- Float with protection system
- Height-adjustable float, allows Adjust the water level
- UNIVERSAL Model
- Suitable for low-tank cisterns

- Quick and quiet filling

This pack comes in a bag, making it easy to store and transport.
