Description

The M12x1.75 Ø12/40mm Black Interruptible Flush Button is an essential component for cistern flushing systems, designed for efficient and reliable operation. This single-flush button features an interruptible mechanism that allows precise control of the water flow, making it easy to use in various plumbing applications. Its black finish provides a modern and discreet appearance, ideal for blending into any environment. The M12 x 1.75 nut is compatible with 60 mm diameters, ensuring easy and secure installation in standard cisterns.

- **Single flush button** for cisterns with interruptible mechanism.
- **Color:** black, which suits different bathroom styles.
- **Push button nut:** M12 x 1.75, suitable for 60 mm diameters.
- **Dimensions:** Ø 12 mm and Ø 40 mm, ensuring compatibility with most flushing systems.
- **Installation:** quick and easy, ideal for replacement or new installation.
- **Material:** made of high-quality materials to ensure durability.
- **Functionality:** allows efficient water control in cisterns.
- **Design:** compact and functional, optimizing bathroom space.
- **Use:** suitable for residential and commercial applications.
- **Maintenance:** requires little maintenance, ensuring long-lasting performance.

Specifications

Colour	Black
