Description

The 1 1/2" fitting is an essential component in the plumbing field, designed to offer a safe and efficient connection in pipe systems. Manufactured with high-quality materials, this fitting guarantees durability and resistance in diverse applications. Its versatile design allows its use in multiple configurations, adapting to the specific needs of each installation. Available in white, it integrates easily into any environment, providing a clean and professional finish.

- Diameter: 1 1/2 inches.
- Color: White.
- Material: High resistance for long-term use.
- Compatibility: Various sizes available to adapt to different systems.
- Uses: Multiple applications in plumbing systems.
- Identification: EAN13 code 8432453080391.
- Visual reference: Guide measurements available in the attached image.

Specifications

EAN	8432453080391
Thread	1 1/2"
