Description

The extendable curved siphon is an efficient and versatile solution for installing drainage systems in sinks and basins. Designed to adapt to different space configurations, this siphon offers easy installation and reliable performance, ensuring optimal water flow and preventing blockages. Its curved design allows for length adjustment to suit the specific needs of each installation, making it easy to use in a variety of domestic and commercial environments.

- **Extendable curved design:** allows length adjustment according to the specific needs of the space.
- **40 mm horizontal outlet:** suitable for standard connections in plumbing systems.
- **32 mm reducer:** facilitates connection with pipes of different diameters.
- **1 1/2" fitting:** compatible with most domestic plumbing installations.
- **High-quality materials:** ensure durability and corrosion resistance.
- **Easy installation:** design allows for quick and hassle-free assembly.
- **Clogging prevention:** ensures optimal water flow in the system Drain.
- **Versatility:** Ideal for various plumbing applications.
- **Compatibility:** Fits most existing drainage systems.
- **Reliable performance:** Ensures efficient long-term operation.
