Description

The 40mm extendable double curved siphon with auxiliary inlet is an ideal solution for installing drainage systems in both domestic and commercial settings. Its innovative design allows for easy adaptation to various plumbing configurations, ensuring efficient and unobstructed water flow. This siphon features a 40mm horizontal outlet, guaranteeing a secure and stable connection and minimizing the risk of leaks. It also includes a 32mm and 1 1/2" reducer, providing broad compatibility with different types of pipes. The auxiliary inlet allows for the integration of other drainage devices or systems, increasing its functionality and versatility. Its white finish not only adds an aesthetic touch but also facilitates its integration into any environment, maintaining the visual harmony of the space.

- Extendable double curved siphon for length adjustment.
- 40mm horizontal outlet for secure connection.
- 32mm and 1 1/2" reducer for compatibility with various pipes.
- Auxiliary inlet for integrating additional devices.
- White color for discreet integration.
- Optimized design for efficient water flow.
- Ideal for installations in domestic and commercial spaces.
- Detailed measurements in the image for correct installation.
