Description

The 110 mm PVC blanking plug is an efficient solution for securely closing and sealing pipes. Designed for plumbing and sanitation applications, this plug offers a glued joint that ensures a watertight and durable seal. Made from PVC, a material known for its strength and durability, this component is suitable for use in various environmental conditions. Its design allows for quick and easy installation, ensuring the integrity of the piping system and preventing unwanted leaks.

- **Diameter:** 110 mm
- **Material:** PVC
- **Joint Type:** Solvent Welded
- **EAN13 Code:** 8432453014716
- **Use:** Ideal for plumbing and sanitation systems
- **Resistance:** High resistance to corrosion and chemicals
- **Installation:** Solvent welded joint for a secure seal
- **Durability:** Long service life under diverse conditions
- **Applications:** Suitable for indoor and outdoor use
- **Maintenance:** Requires minimal maintenance once installed

Specifications

EAN	8432453010893
Material	PVC
