

Product sheet

Source: TE 90° Brass - 25mm

Brand: GIBALTO

Reference: GIB 008937

90-degree brass connector, suitable for environments operating between -10°C and 90°C. Its hot-stamping process ensures a long service life and a reliable connection in diameters of 25 mm, making it an optimal choice for systems requiring high quality and precision in assembly.

[View product online](#)**Description**

The 25mm brass 90° TE is an essential part of a piping system, designed to provide a secure and efficient connection in installations requiring a 90-degree change of direction. Made of high-quality materials, this fitting ensures durability and strength in various working conditions.

- Material: Brass, known for its corrosion resistance and durability.
- Angle: 90 degrees, ideal for directional changes in piping systems.
- Diameter: 25 mm, suitable for a wide range of applications.
- Working temperature: Range from -10°C to 90°C, allowing it to be used in various climatic conditions and industrial applications.
- Manufacturing process: Hot stamping, which ensures a robust structure and a long service life.
- EAN13 code: 8432453089370, for easy identification and inventory management.

Specifications

EAN	8432453089370
Material	Latón
