

Product sheet

Sink basket valve, Genil.

Brand: GENIL

Reference: GIB 000961

Accessory designed to optimize drainage in sinks made of various materials. Its thermoplastic and stainless steel construction ensures durability and resistance. The reduced height facilitates installation and efficient use of space, ensuring effective drainage and preventing blockages in the drainage system.

Description

The sink basket valve is an essential component designed to ensure efficient drainage in various types of sinks. This sanitary accessory combines functionality and durability, being compatible with stainless steel, stoneware, composite, fiberglass, and other sink materials. Its streamlined design allows for easy installation and reliable water handling performance.

- **Compatibility:** Designed for stainless steel, stoneware, composite, and fiberglass sinks.
- **Manufacturing material:** Constructed from high-quality thermoplastic materials to ensure strength and durability.
- **Reduced height:** Its compact design makes it easy to install in limited spaces, optimizing the space under the sink.
- **Stainless steel basket:** The basket is made of stainless steel, ensuring a long life and corrosion resistance.
- **Functionality:** Suitable for efficient sink drainage, ensuring a constant, unobstructed flow of water.
- **Dimensions:** Standard 1 1/2" x 115 mm size, suitable for most sinks.
