Description

The short Click Clack valve in white is an efficient and durable solution for sink drainage systems. Designed to offer optimal performance, it combines high-quality materials with an innovative mechanism that makes it easy to use and maintain.

- Made of brass, which guarantees strength and durability.
- It incorporates an anti-limescale click-clack system, which prevents limescale build-up and ensures smooth operation.
- The rubber at the bottom of the valve is made of a layer of foam and transparent PVC, providing an effective seal.
- It has a high-quality NBR90^º closing gasket, which ensures a hermetic and reliable closure.
- The closing mechanism is made of brass with a stainless steel spring, which prolongs the life of the product.
- Universal design, adaptable to sinks with or without overflow, offering versatility in its installation.
- Adjustable body height up to a maximum of 70 mm, allowing adjustments according to the needs of the space.
- Includes a stainless steel bottom screw, which provides stability and Corrosion resistance.
- 1 1/4" thread, compatible with most standard installations.
