Description

The 1-1/2" rectangular overflow sink valve is an efficient and functional solution for water management in sinks. Designed for optimal performance, this valve adapts to various sink configurations, providing a controlled and safe water flow. Its plateless design allows for easy installation and a clean finish, ideal for those seeking a modern and practical option.

- **Flexible overflow:** Allows for versatile installation and adapts to different sink designs, ensuring efficient drainage.
- **Rectangular shape:** Offers a modern and discreet design that easily integrates into any kitchen style.
- **Plateless sink:** The absence of a plate provides a clean and minimalist finish, reducing maintenance and facilitating cleaning.
- **Dimensions:** 1-1/2" x 70 mm, ensuring compatibility with a wide range of standard sinks.
- **High-quality materials Quality: Made with durable materials that guarantee corrosion resistance and a long lifespan. Easy Installation: Its design allows for easy placement without additional complications. Optimal Performance: Ensures controlled water flow, preventing overflows. Contemporary Style: Ideal for modern kitchens that require both functionality and aesthetics. Compatibility: Fits most standard sinks on the market. Reduced Maintenance: Its simplified design facilitates cleaning and product care.**
