### Description

The angle valve is an essential component in plumbing installations, designed to control the flow of water in domestic and industrial systems. Manufactured with high-quality materials, this valve guarantees durability and efficiency in its operation.

- Brass body: Provides corrosion resistance and a long service life.
- BS handle: Offers simple and safe handling.
- PN 16: Withstands a nominal pressure of up to 16 bars, suitable for various applications.
- Chrome finish: Provides an aesthetic and modern appearance, as well as additional protection against wear.
- Male thread connection: Facilitates installation and ensures a firm and secure connection.
- Available in two sizes: Allows adaptation to different installation needs.
