Brass gate valve - 1/2", GIBALTO

Brand: GIBALTO

Reference: GIB 000979

Brass gate valve designed for industrial applications and irrigation systems. Its robust construction ensures efficient performance under a variety of conditions. The female thread connection allows for simple and secure installation, adapting to different diameters to meet the specific needs of each project.

Description

The 1/2" brass gate valve is an essential component in flow control systems, designed for industrial and irrigation applications. Manufactured with high-quality materials, this valve guarantees reliable and long-lasting performance under various operating conditions.

- Material: Body and gate constructed of brass, offering corrosion resistance and durability.
- Bore type: Reduced bore, optimizing liquid flow control.
- Nominal pressure: PN16, suitable for applications requiring moderate pressure.
- Connection: Female thread, facilitating integration into existing systems.
- Available diameters: From 1/2" to 4", providing versatility for different installation needs.

Specifications

EAN	8432453009798
Material	Latón
Thread	1/2"
