Description

The 1 1/2" check valve is an essential component in piping systems, designed to allow liquid flow in one direction only and prevent backflow. Made of high-quality materials, this valve ensures durability and optimal performance in various industrial and domestic applications.

- Body material: Brass, known for its corrosion resistance and durability.
- Connection type: Female thread, facilitating simple and secure installation into existing piping systems.
- Connection size: 1 1/2", suitable for a wide range of liquid flow applications.
- Main function: Allow one-way flow and prevent backflow of liquid, thus protecting the system from possible damage.
- EAN13 code: 8432453000207, for easy identification and inventory management.

Specifications

EAN	8432453000207
Thread	1 1/2"
