Check Valve - 1 1/4", GIBALTO

Brand: GIBALTO

Reference: GIB 000019

A device designed to allow unidirectional fluid flow, made of brass to ensure durability and corrosion resistance. Its female threaded connection facilitates installation in a variety of applications, ensuring efficient performance in hydraulic and plumbing systems.

Description

The 1 1/4" check valve is an essential component in piping systems, designed to allow liquid flow in one direction only and prevent unwanted backflow. Made of high-quality materials, this valve ensures reliable and long-lasting performance in a variety of industrial and domestic applications.

- Body material: Brass, offering corrosion resistance and durability.
- Connection type: Female thread, facilitating simple and secure installation.
- Nominal diameter: 1 1/4", suitable for a wide range of piping systems.
- Main function: Allow unidirectional flow of liquids, preventing backflow.
- EAN13 code: 8432453000191, for easy identification and inventory management.

Specifications

EAN	8432453000191
Thread	1 1/4"
