Description

White coated plastic cord is a versatile and durable solution for a variety of applications, specifically designed to withstand outdoor conditions. Its construction combines high-quality materials that ensure optimal performance and a long lifespan.

- Interior: Twisted polyethylene cord, which provides a robust and flexible structure.
- Exterior: PVC coating, which offers additional protection against the elements and makes it easy to clean.
- Soft and resistant synthetic fiber, which guarantees comfortable and safe handling.
- Designed for outdoor use, maintaining its properties even in adverse weather conditions.
- Color: White, which easily integrates into different environments and applications.
- Measurements: 5 mm in diameter and 100 meters in length, providing sufficient material for large-scale projects.
- EAN13 code: 8432453004816, for easy identification and inventory management.

Specifications

Colour	White
EAN	8432453004816
Material	Plástico
