Description

Blue and white braided polyplastic cord is a versatile and durable product, designed to meet diverse needs in sectors such as construction, nautical and home. Made with polyethylene on the outside, this cord offers durability and resistance to inclement weather, making it a reliable choice for both indoor and outdoor applications.

- Material: Polyethylene on the outside, providing high resistance to abrasion and the elements.
- Colors: Blue and white, offering an attractive and easily identifiable aesthetic.
- Length: Available in 200 meter spools, allowing extended use without the need for splicing.
- Applications: Suitable for clotheslines, blinds, construction, nautical and other applications that require a strong and durable cord.
- EAN13: 8432453005394, ensuring accurate and easy identification in inventories and product management systems.
