Description

The Mason's Mallet Handle is an essential tool designed to provide comfort and efficiency in construction work. Available in two models, this handle adapts to different user preferences and needs, offering options in both wood and fiber.

- Material: Available in pine wood or fiber, each with specific characteristics for different applications.
- Color: The wooden model features a brown finish, while the fiber combines orange and black colors.
- Finish: The wooden handle offers an extra-smooth finish to the touch, known as silk touch, which provides a soft and comfortable feeling during use. On the other hand, the fiber model has a rough rubber that improves grip, ensuring safe and firm handling.
- Size: With a length of 280 mm, this short handle is designed to facilitate the handling and control of the mason jar.
- Variety: Available in different types and sizes to adapt to the specific needs of each user and task.
