Description

The 130mm Gutter Clamping Bridge is an essential component designed to secure the fixing of metal gratings to gutters. This product guarantees a safe and stable installation, optimizing the performance and durability of the structures where it is applied.

- Dimensions: 130 mm long, providing a precise fit for a wide variety of standard gutters.
- Material: Made of galvanized steel, ensuring corrosion resistance and a long service life even in demanding environments.
- Compatibility: Specifically designed for metal gratings, ensuring seamless integration and robust support.
- Installation: Two clamping bridges are required per gutter, ensuring optimal and balanced fixation.
- EAN Code: 8432453088199, facilitating its identification and management in inventories.
