Description

The 20-meter plastic-coated flat wire is a versatile and durable solution for a variety of applications around the home and garden. This wire combines the strength of galvanizing with the flexibility of a plastic coating, offering a product that is both robust and easy to handle. Its green color blends discreetly into natural surroundings, making it suitable for tasks that require a discreet appearance.

- Material: Galvanized wire with plastic coating.
- Length: 20 meters.
- Color: Green, for visual integration into natural surroundings.
- Flexibility: Strong yet easy to bend, allowing it to adapt to a variety of shapes and uses.
- Ease of use: It is easily cut, making it easy to handle and apply to different projects.
- Applications: Suitable for attaching labels, closing bags, and securing cables, among other uses.
