**Reinforcement angle round tip -
30x30mm - 100 units, LOGUI**

Brand: LOGUI

Reference: GIB 009836

Reinforcement element with a rounded tip design, measuring 30x30 mm, suitable for applications requiring greater stability. Its polished finish ensures a long service life and durability in a variety of environments, facilitating its integration into structures and providing solid, discreet support during construction or repair work.

[View product online](#)**Description**

The round corner reinforcing angle is an essential component for various construction and DIY applications. Designed to provide stability and additional support, this angle is a reliable solution for reinforcing structures and ensuring a long-lasting assembly. Its polished finish not only offers an aesthetic appearance but also provides corrosion resistance, ensuring a long product life.

- Dimensions: 30x30 mm
- Quantity: 100 units per pack
- Finish: Polished
- EAN13: 8435290201134
- Shape: Round corner
- Material: High-strength steel
- Use: Reinforcing corners and structures
- Corrosion resistance: High, thanks to the polished finish
