Description

Self-vulcanizing tape is a versatile and effective solution for a wide range of repair and maintenance applications. Designed to provide a durable, watertight seal, this tape is ideal for work on pipes, electrical cables, and more. Its ability to adapt to different materials makes it an essential tool for professionals and DIY enthusiasts.

- **Dimensions:** 2.5 meters long and 19 mm wide.
- **Material:** Self-vulcanizing rubber composition that guarantees a strong and waterproof seal.
- **Compatibility:** Suitable for use on polyethylene, metal, rigid and flexible PVC pipes.
- **Applications:** Repairing engine sleeves, electrical cable splices and other surfaces that require a secure seal.
- **Resistance:** Withstands extreme temperatures and is weather resistant, making it suitable for outdoor use.
- **Easy to use:** No additional tools required for application; Simply wrap and press to activate the vulcanization process.
- **Durability:** Provides a long-lasting seal that will not degrade over time, ensuring a long life for repairs.
