Description

Double-ply polyester slings are the ideal solution for lifting heavy loads, offering exceptional strength and long-lasting durability. With a load capacity of up to 2000 kg and a length of 2 meters, these slings are designed to meet the demands of various industrial and construction applications. Their double flat structure, along with reinforced loops at the ends, ensures a secure grip and even weight distribution, minimizing the risk of damage to loads.

The manufacturing process includes the use of programmable automatic machines, ensuring an unbeatable quality finish and greater reliability in use. These slings are available in different sizes and load capacities, adapting to the specific needs of each user.

- **Material:** High tenacity polyester
- **Load capacity:** 2000 kg
- **Length:** 2 meters
- **Structure:** Double flat
- **Gazás:** Reinforced at the ends
- **Manufacturing:** Sewn with programmable automatic machines
- **Use:** Lifting heavy loads
- **Applications:** Industrial and construction
- **Availability:** Different sizes and supported loads
- **EAN13:** 8432453079265
