Junkers yellow membrane, JUNKER

Brand: JUNKER

Reference: GIB 000883

Yellow heater membrane, with a 50 mm diameter, ensures a precise fit in heating systems. Its construction with high-quality materials guarantees durability and optimal performance in domestic heating applications, contributing to system efficiency.

Description

The Junkers yellow membrane is an essential component for the correct operation of heaters compatible with the Junkers brand. Designed to guarantee optimal performance, this membrane ensures proper regulation of gas flow, contributing to the efficiency and safety of the heating system.

- Compatibility: Specifically designed for Junkers brand heaters.
- Diameter: Ø 50 mm, ensuring a precise and secure fit in the system.
- Material: Made with high-quality materials that guarantee durability and wear resistance.
- Function: Regulates gas flow for efficient and safe operation of the heater.
- Color: Yellow, making it easy to identify and verify during maintenance.
