Description

The Junkers white membrane is an essential component for the correct operation of heaters compatible with the Junkers brand. Designed to ensure optimal performance, this membrane is perfectly adapted to the technical specifications of the devices, guaranteeing efficient and safe operation.

- **Compatibility:** Specifically designed for Junkers brand water heaters, ensuring a precise fit and trouble-free operation.
- **Diameter:** Ø 67 mm, allowing for simple installation and a proper fit within the water heater system.
- **Material:** Made of high-quality materials that offer durability and wear resistance, prolonging the lifespan of the water heater.
- **Function:** Acts as a crucial component in the water heater's pressure regulation system, contributing to a constant and efficient flow of water.
- **Easy installation:** Designed to be hassle-free to install, allowing for quick and efficient maintenance of the water heater.
- **Performance:** Optimizes the operation of the water heater, ensuring that the system operates at its maximum capacity and efficiency.
