**Junkers white membrane Ø 67,
JUNKER.**

Brand: JUNKER

Reference: GIB 001260

67 mm diameter diaphragm, designed to optimize performance in heating systems. Its construction with high-quality materials ensures a precise fit, contributing to the equipment's efficiency and durability. It is an ideal solution for the maintenance and repair of this brand's devices.

[View product online](#)**Description**

The Junkers Ø 67 white membrane is an essential component for the correct operation of Junkers water heaters. Specifically designed to guarantee optimal performance, this membrane ensures proper regulation of water flow, contributing to the efficiency and durability of the heating system.

- **Compatibility:** Designed for Junkers water heaters, ensuring a precise fit and efficient operation.
- **Diameter:** 67 mm, providing the exact measurement for hassle-free installation.
- **Material:** Made with high-quality materials that guarantee strength and durability under conditions of intensive use.
- **Functionality:** Regulates the flow of water inside the heater, optimizing performance and prolonging the life of the appliance.
- **Identification:** Includes E letters for easy identification and correct installation.
