Description

The Cointra black membrane is an essential component designed to ensure optimal operation of specific water heaters. This product is compatible with various Cointra heater models, ensuring a precise fit and efficient performance. Made with high-quality materials, this membrane offers durability and resistance, contributing to a longer lifespan of your heater.

- Compatibility: Specifically designed for Cointra heaters, including the CMB5 model.
- Diameter: Ø 50 mm, ensuring a proper and secure fit in the device.
- Material: Made with durable materials that guarantee long-lasting durability and consistent performance.
- Functionality: Helps regulate the flow of water and gas in the heater, ensuring efficient and safe operation.
- Installation: Easy to install, allowing for quick and hassle-free replacement.
