Description

The 230mm polyester roller refill is an essential tool for any painting project requiring a professional finish. Designed specifically for standard handles (ref. 9907), this anti-drip roller is ideal for applying emulsion and acrylic paints to various surfaces, including walls, ceilings, and smooth or semi-smooth areas. Its innovative design reduces the possibility of drips, allowing for a cleaner and more efficient painting experience. Furthermore, its polyester structure improves coverage, ensuring a uniform, high-quality finish with every application.
