Cointra Flange Resistor - 2000W, JUNKER

Brand: JUNKER

Reference: GIB 008203

Flange heating element with 2000W power and 230V voltage. Its curved design and specific dimensions guarantee optimal performance in heating systems, ensuring efficiency and a long service life in a variety of applications. Ideal for those seeking effective and reliable air conditioning solutions.

Description

The Cointra Flange heater is a component designed to deliver efficient performance in water heating systems. With a robust construction and precise technical specifications, this heater is suitable for applications requiring reliable and consistent heating.

- Power: 1500W
- Length: 280 mm
- Voltage: 230V
- Shape: Curved
