Product sheet

Monoblock Resistor - 2000W, JUNKER

Brand: JUNKER

Reference: GIB 013603

This high-efficiency component is designed for applications requiring rapid, even heating. Its robust construction and straight design allow for easy installation, ensuring optimal performance in heating systems. Ideal for industrial and domestic environments that demand reliability and durability.

Description

The 2000W Monoblock heating element is an efficient and reliable solution for applications requiring uniform and consistent heating. Designed to deliver optimal performance, this heating element is suitable for a variety of industrial and commercial environments. Its robust construction and technical specifications ensure a long life and safe operation.

- Power: 2000W
- Thread: 1 ¼”
- Length: 280mm
- Voltage: 230V
- Shape: Straight
