Description

The 250-gram Galvanized Wire Roll, with a 1.6 mm diameter and a 15-meter length, is a versatile and durable solution for various metal enclosure applications. This wire, manufactured with a galvanization process that gives it corrosion resistance, is ideal for use as a guide wire in the installation and tensioning of single-twist mesh. Its strength and flexibility allow for easy handling, ensuring a precise and secure fit for any fencing project.

- **Material:** Galvanized wire
- **Weight:** 250 grams
- **Diameter:** 1.6 mm
- **Length:** 15 meters
- **Recommended use:** Metal fences and guide wire for single-twist mesh
- **Corrosion resistance:** High, thanks to the galvanization process
- **Flexibility:** Allows for easy handling and adjustment
- **Applications:** Gardens, land, and fencing projects
- **EAN13:** 4801101500118

This product It is a reliable option for those seeking quality and durability in their enclosure projects.
