Solder Tee Fig 5130 - 22mm

Brand: GIBALTO

Reference: GIB 005929

Copper fitting ideal for soldering in water, heating, and gas systems. Its design allows it to adapt to pipes of various diameters, ensuring robust and reliable connections. It is an efficient solution for plumbing projects, ensuring the integrity and durability of installations in a variety of applications.

Description

The FIG 5130 solder tee is an essential accessory for installing pipework systems, designed to provide a secure and efficient connection for a variety of applications. Made of copper, this component ensures durability and corrosion resistance, making it a reliable choice for plumbing and heating projects.

- Diameter: Available in ø15, 18, and 22 mm sizes.
- Material: Copper, known for its excellent thermal conductivity and corrosion resistance.
- Applications: Suitable for domestic water installations, both cold and hot, heating systems using water and fuel oil pipes, as well as for gas installations, including natural gas and liquefied gas.
- EAN13 code: 8432453059298, for easy identification and inventory management.
