Cold Galvanized Spray 400ml

Brand: GIBALTO

Reference: GIB 008600

Product designed to protect metal surfaces against corrosion and rust. Its formulation guarantees waterproofing and high adhesion, adapting to different environments. The galvanic action of zinc ensures effective coverage, even in areas with previous damage, prolonging the metal's lifespan.

Description

The 400ml Cold Galvanizing Spray is designed to provide effective anti-corrosion and anti-rust protection for metal surfaces. Its advanced formula provides excellent waterproofing, great adhesion, and elasticity, making it a reliable solution for metal protection in a variety of environments. This spray is suitable as both a base and topcoat, ensuring active protection against corrosion and rust thanks to the galvanic properties of zinc.

- Excellent anti-corrosion power and cathodic protection: Stops rust and corrosion through electrochemical action, fusing the zinc onto previously galvanized steel or metal.
- Metal-based protection: Offers antioxidant protection even on already damaged metal surfaces.
- Ultra-fast drying: Allows efficient and rapid application, reducing the waiting time between coats.
- Superior adhesion: Guarantees optimal waterproofing capacity, ensuring that the coating remains intact in adverse conditions.
