Lithium Grease 400 ml, TLS

Brand: TLS

Reference: GIB 002362

Lithium lubricant formulated for industrial applications requiring resistance to high pressure and vibration. Its ability to prevent corrosion and oxidation contributes to component durability, optimizing performance under adverse conditions. Especially suitable for open gears and moving mechanisms.

Description

400ml lithium grease is a versatile lubricant designed to meet the demands of industrial machinery operating under extreme conditions. This product is especially effective in situations of high pressure, intense vibrations, or high friction, and is suitable for open gears exposed to aggressive environments. Its advanced formulation provides comprehensive protection, ensuring optimal performance and extending the life of the equipment.

- Capacity: 400 ml
- Protection against corrosion, oxidation, and rust on articulated parts
- Improves machinery performance and reduces maintenance costs
- Formulation suitable for high pressure and vibration conditions
- Effective in open gears exposed to aggressive environments
