Cyanoacrylate Accelerator Kit, UNECOL

Brand: UNECOL

Reference: GIB 005644

This adhesion system optimizes the bonding of porous materials, facilitating rapid drying in vertical applications. Its formulation guarantees precise and long-lasting adhesion, making it an effective solution for projects that demand high-quality component assembly.

Description

The cyanoacrylate accelerator kit is an efficient solution for the fast and secure bonding of porous materials and in vertical applications. This set combines the adhesive power of cyanoacrylate with an accelerator spray that optimizes drying time, guaranteeing a professional finish with every application.

- **Composition:** Includes a high-viscosity cyanoacrylate adhesive and an accelerator spray formulated to improve adhesion on difficult surfaces.
- **Applications:** Designed for bonding porous materials such as wood, leather, ceramics and certain plastics, as well as for applications on vertical surfaces where fast drying is required.
- **Drying time:** The use of the accelerator spray significantly reduces curing time, allowing almost instant adhesion.
- **Viscosity:** Cyanoacrylate has a high viscosity, which facilitates its application on uneven surfaces and improves coverage.
- **Strength:** Provides a strong and durable bond, resistant to impacts and mechanical stress.
- **Format:** The kit includes a 20 gram container of cyanoacrylate and a 200 ml accelerator aerosol.
- **Operating Temperature:** It works effectively in a temperature range of -20°C to 80°C, ensuring its versatility in various environmental conditions.
- **Compatibility:** Suitable for a wide range of materials, although prior testing on solvent-sensitive plastics is recommended.
