Description

Two-Component Gray Epoxy Putty is an advanced solution for repairing pipes and surfaces made of various materials, including copper, lead, iron, and PVC. This product is distinguished by its ability to harden to a strength comparable to steel, ensuring a solid and durable bond in a wide range of applications, both in domestic and industrial settings. Its two-component formulation allows for efficient mixing, guaranteeing optimal performance in repairs requiring high strength. With compact dimensions of 10 x 3 x 17 cm and a weight of 75 g, this putty is easy to handle and apply, making it an ideal choice for quick and effective repairs.

- **Material:** Epoxy Putty
- **Dimensions:** 10 x 3 x 17 cm
- **Weight:** 75 g
- **Color:** Gray
- **Hardening:** Similar to steel
- **Suitable for:** Repairs on copper, lead, iron, PVC, among others
- **Use:** Ideal for domestic and industrial applications
- **Drying Time:** Fast and efficient
- **Resistance:** High resistance to corrosion and water
- **Application:** Easy to mix and apply

Specifications

Colour	Grey
EAN	8414646810299
