Washer Fitting - 40mm, ABRISA

Brand: ABRISA

Reference: GIB 007848

This component is designed to ensure an effective seal in polyethylene joints, preventing gas or liquid leaks. Its polyethylene construction and O-ring compression ensure optimal performance in a variety of applications, adapting to different diameters according to system needs.

Description

The 40 mm fitting washer is an essential component designed to ensure tightness in piping systems, preventing unwanted gas or liquid losses. This product is especially useful in applications that require a reliable and long-lasting seal, thanks to its design and manufacturing material.

- Diameter: 40 mm
- Function: Prevents gas or liquid losses
- Type: O-ring for replacement of polyethylene (PE) unions
- Material: Polyethylene
- Availability: Seven different diameters
- Sealing method: Axial or radial compression
- EAN13: 8432453078480
