

Product sheet

Extra Large Chest, Abisa

Brand: ABRISA

Reference: GIB 006424

Designed for irrigation systems, this enclosure offers a robust and secure solution for safeguarding essential components. Its reinforced material and UV resistance ensure durability, while its design allows easy and safe access to the interior, facilitating maintenance and inspection.

Description

The extra-large manhole is a robust and efficient solution for irrigation installations, specifically designed to house and protect essential components such as solenoid valves and shut-off valves. Made with high quality materials, this manhole cover guarantees durability and resistance in various environmental conditions.

- **Material:** Made of reinforced polypropylene (PP), which ensures a solid and durable structure.
- **UV resistance:** Designed to withstand prolonged exposure to the sun without degrading.
- **Easy installation:** The lid is housed inside, making it easy to embed it in the ground.
- **Easy access:** The top cover allows quick and easy inspection of the inside of the manhole.
- **Security:** Incorporates an anti-vandal lock to protect internal components from unauthorized access.
- **Key included:** Supplied with a plastic Allen key for easy access and maintenance.
- **Non-slip surface:** The lid has a design that prevents slipping, improving safety during handling.
- **Dimensions:** With measurements of 520x420x260 mm, offers ample space to house the necessary components.
- **Capacity:** It can hold up to 4 small or 3 large solenoid valves, adapting to different installation needs.
- **Number of outputs:** It has 6 outputs, allowing a versatile and efficient connection of irrigation systems.
