Super Large Manhole with Efficient Drainage - ABRISA

Brand: ABRISA

Reference: GIB 006414

A robust and functional structure, ideal for irrigation systems, guarantees the protection of essential components. Its UV-resistant material and non-slip surface ensure durability and safety. The design optimizes installation and access, incorporating a locking system that prevents unauthorized tampering.

Description

The super-large manhole is a robust and efficient solution for irrigation installations, specifically designed to house and protect essential components such as solenoid valves and shut-off valves. Made from high quality materials, this manhole cover guarantees durability and resistance in various environmental conditions.

- Material: Reinforced polypropylene (PP), providing a solid and durable structure.
- UV resistance, ensuring that the material does not degrade with prolonged sun exposure.
- Built-in design, with a lid that is housed inside for easy installation.
- Top lid that allows quick and easy inspection of the interior, facilitating maintenance.
- Built-in anti-vandal lock for added security and protection against unauthorized access.
- Plastic Allen key included for comfortable and secure operation of the lock.
- Non-slip surface, providing additional security in wet or slippery conditions.
- Dimensions: 650x530x300 mm, offering ample space for various configurations.
- Capacity for Accommodates up to 6 small or 3 large solenoid valves, adapting to different installation needs.
- Number of outputs: 10, allowing for versatile and efficient connection of irrigation systems.
