Description

The 1/2" - 1/2" cuttable coil is an essential component for irrigation systems, designed to efficiently connect sprinklers, turbines and diffusers to the irrigation network. Its cuttable design allows the length to be adjusted according to the specific needs of each installation, offering flexibility and adaptability in the assembly.

- Connector for sprinklers, turbines and diffusers to the irrigation network.
- Allows the thread to be extended to adapt to different configurations.
- Cuttable design that makes it easy to adjust to the desired length.
- Available in three different models depending on the thread type.
- EAN13: 8432453020434.
- Bulk sale for larger projects.
