Description

The 20mm Single Link is an essential component for joining polyethylene (PE) pipes in drip irrigation systems. Designed to provide a secure and efficient connection, this link ensures optimal water flow in a variety of irrigation applications.

- Material: Made of polypropylene (PP), a material known for its strength and durability under demanding conditions.
- Unique Design: Provides a better grip, ensuring connections remain firm and leak-free.
- Variety of Sizes: Available in eight different sizes to suit a variety of installation needs.
- EAN13 Code: 8432453012705, for easy identification and inventory management.
