Description

The 25mm bulk PE Simple Connector is a fundamental component for joining polyethylene (PE) pipes in drip irrigation systems. This product, manufactured from polypropylene (PP), stands out for its strength and durability, making it a reliable option for maintaining the integrity of irrigation installations. Its unique design provides a better grip, ensuring firm, leak-free connections, which is essential for the efficient operation of irrigation systems.

- **Material:** Made of polypropylene (PP), known for its high strength and durability.
- **Unique Design:** Improves grip, ensuring firm, leak-free connections.
- **Size Variety:** Available in eight different sizes to suit various installation needs.
- **Packaging:** Offered in bags of 100 units, with bulk options for larger sizes.
- **Application:** Ideal for joining PE pipes in drip irrigation systems.
- **EAN13:** 8432453012651, for easy identification and inventory management.
- **Compatibility:** Compatible with irrigation systems Standard.
- **Installation:** Easy to install, reducing assembly time.
- **Maintenance:** Requires low maintenance, ensuring long-lasting performance.
- **Recommended Use:** Perfect for agricultural and gardening applications.
