Description

The 1" 100 Mesh mesh filter is an essential component in irrigation systems, designed to prevent pipe clogging by impurities. Manufactured with high-quality materials, this filter ensures efficient and long-lasting performance in various irrigation applications.

- Body made of polypropylene, offering resistance and durability against adverse conditions.
- Connections with male threads, facilitating its integration into different piping systems.
- Mesh filter with a 100 Mesh filtration capacity, guaranteeing the effective retention of unwanted particles.
- EAN13: 8432453010602, for easy identification and inventory management.
