Description

The 2" 100 Mesh Filter is an essential component in irrigation systems, designed to prevent pipe clogging by impurities. Made of high-quality materials, this filter guarantees efficient and long-lasting performance in various irrigation applications.

- **Body Material:** Polypropylene, which offers corrosion resistance and durability in adverse conditions.
- **Thread Type:** Male threads, facilitating a secure and stable connection in irrigation installations.
- **Filter Type:** Mesh, which provides effective filtration of unwanted particles.
- **Filtering Capacity:** 100 Mesh, ensuring the retention of fine impurities to maintain a clean and constant water flow.
- **Diameter:** 2 inches, suitable for a wide range of irrigation systems.
