Description

The puncture-proof dripper is an efficient solution for watering plants in gardens and orchards, designed to offer precise control of water flow. This device stands out for its advanced regulation system, which allows the flow rate to be adjusted effectively, ensuring that each plant receives the amount of water necessary for optimal growth.

- Maximum efficiency in its regulation system, allowing precise adjustment of the water flow.
- Closing pressure that guarantees a high-precision closed circle, optimizing water use.
- Easy installation, making it easy to use in different irrigation configurations.
- Color: black, which blends discreetly into the garden or orchard environment.
- Flow rate of 5 liters per hour, suitable for a wide variety of plants.
- Presented in a bag of 200 units, ideal for larger irrigation projects.
