Description

The 16L/H interline dripper is an efficient solution for watering plants in gardens and orchards. Designed to provide a consistent flow of water, this dripper integrates easily into existing irrigation systems, ensuring each plant receives the right amount of water.

- Flow rate: 16 liters per hour, providing even and consistent watering.
- Compatibility: Suitable for 12 or 16 mm pipes, allowing use in a wide variety of irrigation systems.
- Design: It features a minimum flow labyrinth and a pre-filter that minimizes the possibility of clogging, ensuring uninterrupted operation.
- Adaptability: It offers the possibility of adjusting the spacing between drippers according to the specific needs of each crop.
- Color: Black, which facilitates its discreet integration into the garden or orchard environment.
- Variety of flow rates: Available in various hourly flow rates to adapt to different irrigation requirements.
- EAN13: 8432453010572, for easy identification and inventory management.
